Editorial Communications

All manuscripts and editorial correspondence, except as noted below, should be addressed to the editor, James P. Houck, Department of Agricultural and Applied Economics, 332 Classroom Office Bldg., University of Minnesota, St. Paul, MN 55108

Communications concerning book reviews and books submitted for announcement in the *Journal* should be sent to the book review editor, Ronald A. Schrimper, Department of Economics and Business, P. O. Box 5368, North Carolina State University, Raleigh, NC 27650

Editorial Policy

The purpose of the *Journal* is to provide a forum for creative and scholarly work in agricultural economics. Thus, acceptable manuscripts should have a relationship to the economics of agriculture, natural resources, or rural and community development. Contributions, methodological or applied, in the business, extension, research, and teaching phases of agricultural economics are equally encouraged.

The *American Journal of Agricultural Economics* (ISSN 0002-9092) is published five times per year (February, May, August, November, December) by the American Agricultural Economics Association and printed by Heffernan Press, Inc., Worcester, Massachusetts, USA. Subscription cost is \$35 per year plus foreign postage; members receive copies as part of their membership fee. Second class postage is paid at Ames, Iowa, and additional mailing offices.

FOREWORD

This Handbook-Directory is computer printed from membership lists and biographical information collected by survey. Members were surveyed directly and as part of the Employment Registry file. The latter was received by tape from Illinois Job Service. Registry data was printed on 1982 membership dues notices for update and correction purposes. To some extent members wrote their own descriptions. This caused nonuniformity in the use of abbreviations, job descriptions, specializations, and the like. These can be changed for future editions if desirable by the member. It is the plan to provide each member a listing of their biographical sketch on the annual dues notice. This is one means by which members can correct their sketches and update them to maintain a current file. A survey form will be sent to all new members.

Having the membership handbook-directory information plus personal data on computer file makes it possible to assist the Executive Board and committees of the Association with lists of members by specialization, employment, title, graduation institution, race, citizenship, sex, age, etc. It has already been helpful for recruitment purposes as an example. If any committee desires a listing of members they should go through their assigned board member representative for approval. Where a board member is not assigned the secretary-treasurer will consult with the president before providing any listings of members to individuals, groups, or institutions within and outside of the Association which has not otherwise been approved.

Appreciation is extended to members for their cooperative efforts in providing data and to my office personnel for their patience and diligent efforts in gathering, sorting, reading and correcting of forms over many months. Data Processing has been very helpful in writing a computer program which is both operational and functional.

Sydney C. James
Secretary-Treasurer

A SHORT HISTORY OF THE AMERICAN AGRICULTURAL ECONOMICS ASSOCIATION^a

The pursuit of agricultural economics as a discipline or profession in its own right is a development of the present century. Its growth has been paralleled, and to some extent can be measured by, the growth of the American Agricultural Economics Association, which traces from the founding of parent bodies early in the century. The problems addressed in agricultural economics, however, had much earlier origins. These problems had been dealt with responsibly, though unsystematically, for a long time.

Economic problems of farmers had been recognized early in our nation's history. By some accounts, they were significant in the unrest leading to the American Revolution. Many institutions expressed concern. Farm journals gave considerable space to economic matters in farming at least as early as 1819. Various actions were proposed. They ranged from improving the quality of management on individual farms to cooperative purchasing and marketing.

In 1839 an appropriation of \$1,000, primarily for collection of statistics, was made to the U.S. Patent Office. If farmers had the data, it was argued, they could make rational decisions in both production and marketing. The first agricultural questions in the national census came in 1840. In succeeding decades, with F. A. Walker and W. H. Brewer making substantial contributions, the census provided the basic information for studying the growth of American agriculture.

The agricultural reforms of 1862, including the Morrill Land Grant College Act, the Homestead Act, and the Department of Agriculture Act, were aimed at alleviating the economic problems of the farmer. Subsequently, the Department of Agriculture, through the efforts of Jacob R. Dodge, Frank H. Hitchcock, George K. Holmes, and others made important contributions, not only in developing statistical services but also in the treatment of economic problems of production, marketing, and foreign trade in farm products. However, when economic unrest led to the Populist movement near the end of the century, no systematic analyses of the economic problems of agriculture were yet at hand, even though some pioneers were beginning to move in this direction.

In the 1880's and 1890's concern for economic problems affecting agriculture was expressed by economists F. A. Walker and Richard T. Ely and horticulturist Liberty Hyde Bailey. Agricultural professors and scientists such as I. P. Roberts, Thomas F. Hunt, and Willet M. Hays began to offer courses in rural economics and farm management.

In the first decade of the twentieth century economic problems relating to agriculture as an area of inquiry developed to the point that it could become a full time job for a college professor. Interest became widespread, though few men were available who had the training needed for economic research and teaching.

Growth was slow at first. Men whose training had been in agronomy, animal husbandry, or general economics became interested in the economics of agriculture--then often called farm economics--and went to work in the new field. Many emphasized farm management, while others turned to land tenure, cooperative marketing, or farm credit. Occasionally public policy was included. As contributions were made, the subject gained prestige.

Before the end of the first decade several professors were giving the new subject full time. Some of the early pioneers were E. F. Adams, Leroy Anderson, Frank App, T. C. Atkeson, Andrew Boss, K. L. Butterfield, A. E. Cance, T. N. Carver, F. W. Card, T. P. Cooper, J. L. Coulter, D. H. Doane, J. R. Fain, G. T. Fairchild, J. A. Foord, F. D. Gardner, M. B. Hammond, Harry Hayward, B. H. Hibbard, G. N. Lauman, K. C. Livermore, David Lubin, J. B. Morman, D. H. Otis, E. C. Parker, H. C. Price, D. W. Pugsley, W. J. Spillman, H. C. Taylor, R. P. Teele, C. W. Thompson, J. C. Thompson, E. H. Thomson, G. F. Warren and E. H. Webster.

^a Written by: John C. Redman, Secretary-Treasurer, 1976.

The first recorded meeting in the United States relating to the economics of agriculture was held in connection with the ninth annual meeting of the American Economic Association at Johns Hopkins University in 1897. A group of questions on land tenure, credit and population movement were drawn up and discussed by Liberty Hyde Bailey, John F. Crowell, W. W. Folwell, E. R. Johnson, E. T. Peters, W. A. Scott, E. R. A. Seligman, Thomas G. Shearman, C. S. Walker, Lester F. Ward, and Walter F. Willcox. A theme which seemed to come out of the meeting was the "maladjustment of agriculture to other industries."

The American Economic Association held several additional sessions on agricultural topics between 1897 and 1913. In the meantime, teachers and research workers in farm management were beginning to hold independent sessions and to develop closer relationships with the Association of American Agricultural Colleges and Experiment Stations.

A group interested in farm management met on the campus at Ames, Iowa on July 26-28, 1910. They organized the American Farm Management Association on July 27. The announced object was to "promote the investigation and teaching of farm management." The next day the new association held its first meeting to hear reports on "scope and cleavage" and "course of study." The dues were set at \$1.00 per year. Later in the same year, another group interested in the economics of agriculture held a special session in conjunction with the American Economic Association and the American Statistical Association meeting in St. Louis.

The fragmentation of organizations paralleled the scattered economic work being carried on in the United States Department of Agriculture at the time. From 1913 to 1916, the American Farm Management Association and the National Conference on Marketing and Farm Credits were the principal organizations discussing economic matters. However, the American Association for Agricultural Legislation was organized in Philadelphia on December 28, 1917 with Richard T. Ely as Secretary. Members of the National Conference then organized the American Association of Agricultural Economists. In December 1917, when both met with the American Economic Association, proposals for their consolidation were discussed. The American Farm Management Association appointed a committee of three to meet with a similar committee from the American Association of Agricultural Economists. In January 1919, a merger resulted as the Farm Management Association changed its name to the American Farm Economic Association and its constitution was broadened to include the objectives of both groups.

The constitution provided for an executive and three standing committees, namely (1) investigation, (2) teaching, and (3) extension. To these were soon added committees on experiment stations, funds and work, and terminology. Other new ones, such as a committee on cost investigations, met special or continuing needs. This development paralleled the subsequent redesignation of the Office of Farm Management in the U.S.D.A. as the Office of Farm Management and Farm Economics.

The newly restructured organization also voted to begin the publication of a quarterly journal, Journal of Farm Economics. The first issue, edited by L. A. Moorhouse, was published in June 1919 "to serve those interested in the economic forces and influences as they operate to affect the business of farming." For members on campuses, this became their link to the association. Its pages reflected the developments within the field and the involvement of the organization. The publication of the Journal necessitated a policy begun in 1920 of requiring payment of the \$2.00 annual dues in advance. Delinquent members would not get the Journal.

Meetings were held annually, frequently in conjunction with related organizations such as the American Economic Association and the American Statistical Association. For years the meetings were held in late December. Since 1947 annual meetings have been held independently in the summer, usually on college and university campuses.

The association has always been concerned with building its membership and reaching across geographic distance. In addition to its special membership for graduate students, from 1948 to 1973 the association had a student affairs committee, which at

various times promoted debate, public speaking, and essay contests. At one time, more than 40 chapters were active.

The association deliberately sought to maintain a balance between Washington, especially the Bureau of Agricultural Economics and successor agencies, and the rest of the profession. At one time the concern was that the BAE would become domineering. In 1927 the editor reported that he did not encourage the Bureau staff to write articles. In fact, he held books for review until he could get others to review them. Later, though, fears of improper relationship vanished.

The relation of association activity to federal governmental policy has been a vague and variable issue. Early leaders were not greatly inhibited. Concerned over the seeming inconsistency of government programs with the farm situation, the association went on record in 1927 asking the Secretary of the Interior and the Director of Reclamation to hold in abeyance further reclamation of land by large scale drainage or irrigation until farmers' incomes were on a par with other occupations. During the 1930's the association gave much attention to farm policy issues at annual meetings and in the Journal but did not itself engage in advocacy. In recent decades, the association has maintained an unwritten policy of "no official position" on economic issues as it continues to encourage freedom of inquiry and expression by individuals. It nevertheless retains the option of taking positions.

The association appointed members in 1926 to serve on a Social Science Research Council committee to study research in agricultural economics. In 1933, representatives were designated to work on the Census of Agriculture. The expansion of government activity during the New Deal period had emphasized the need for more qualified agricultural economists, a need recognized by the association in the appointment of the Committee on Recruitment and Training in 1936. Increased interest in marketing research was reflected in the Committee on Marketing that became joint with the Social Science Research Council the same year. Another committee appointed to meet a current problem was the Committee on Index Numbers, which discussed the relative merits of using 1910-14 or 1935-39 as base periods.

Like many other professional organizations, the American Farm Economic Association suspended its annual meetings from 1942 through 1945. A 1942 meeting was planned but many members refused or were reluctant to take part in the program because of transportation problems. The modified program was cancelled at the request of the Office of Defense Transportation. Papers that had been prepared, however, were published in the February issue of the Journal, and the executive committee and other committees continued to function. In 1943, the Committee on Recruitment and Training recommended that the Executive Committee urge the General Education Board, and other agencies to establish graduate scholarships and fellowships in agricultural economics. These would enable those whose graduate training had been interrupted by the war to resume their work.

To encourage and recognize excellence, the association appointed a committee on awards to make recommendations. It urged that an award be given in the field of agricultural economics and the executive committee recommended that the award be for the best article published in the Journal of Farm Economics. The first award was made in 1946.

The program for recognition has become an important phase of the association's activities. In 1944 it was announced that an anonymous donor, who was later identified as W. H. Jasspon, had given \$12,500 for prizes,—\$5,000 for first place, \$2,500 for second, \$1,250 for third place, and fifteen other awards of \$250, for essays on "A Price Policy for Agriculture, Consistent with Economic Programs, That Will Promote Adequate and More Stable Income from Farming." The contest stimulated considerable interest among members and brought the association to the attention of others.

A special grants committee was appointed in 1947 to raise funds for meritorious research awards to be made annually. Finding this means of raising money effective,

the practice was continued and contributors became sustaining members and later institutional members. The awards were first given in 1950 for outstanding published research and for outstanding doctoral dissertations in agricultural economics.

In 1956 an award was given for papers contributed by graduate students. In 1960 this was supplanted by an award for outstanding masters theses. In 1965 a distinguished undergraduate teacher award with a monetary remuneration of \$250 was instituted.

Another major essay contest was announced in the May, 1965 Journal on "Effective Competition and Changing Patterns in the Marketing of Agricultural Products." The first prize was \$5,000, second was \$2,500, third prize was \$1,000, with five honorable mention awards of \$500 and five of \$250. The results of the contest were announced in 1966 and winning essays were published in a special August 1966 issue of the Journal. The donor of prize funds was then announced as the National Association of Retail Food Chains.

A distinguished extension program award was started in 1966. More recent awards were inaugurated when the extension publication award was given in 1972 and the undergraduate student essay award was granted the following year.

The Fellows program was instituted in 1957 to provide recognition to some of those who had made sustained contributions to the profession and the association. John D. Black, Thomas Nixon Carver, Joseph S. Davis, Garnet W. Forster, Asher Hobson, Edwin G. Nourse, Theodore W. Schultz, Henry C. Taylor, Frederick V. Waugh, and Milburn L. Wilson were the first recipients. Three fellows have been selected in most of the ensuing years.

The association moved to fill a void when it sponsored two books of readings. Oscar Jesness edited Readings in Agricultural Policy, published in 1949, and Fred Waugh edited Readings in Agricultural Marketing, published in 1954. More recently, the association sponsored a three-volume review of literature in agricultural economics since World War II. These volumes are scheduled for publication sometime in 1977 or 1978.

Over time, the work by agricultural economists had widened to encompass many facets of economics. On January 1, 1968, following a membership survey, the name of the association was changed to the American Agricultural Economics Association and the quarterly became the American Journal of Agricultural Economics.

In 1960 the association moved into the area of literature retrieval. Some members remembered the days when USDA's Bureau of Agricultural Economics Library had its own holdings and prepared bibliographies. They felt that its incorporation into the main library had resulted in giving less attention to the expanding field of agricultural economics. Also, the quantity of literature being published required a new approach.

Accordingly, at the winter meeting of 1960 the association agreed to co-sponsor with the Social Science Research Council, at SSRC's expense, a conference to discuss the problems of literature retrieval. The conference was held in the spring of 1961 with eleven librarians and eight agricultural economists attending. At the next meeting of the association, the president of AFEA appointed a Committee on the Retrieval of Agricultural Literature. After the National Science Foundation delayed approval and then rejected the project, an abbreviated study was begun in 1964 and completed in 1968 to be published in 1969 as Technical Bulletin 191 of North Carolina State University.

Meanwhile, in 1967, the committee held a workshop to consider subject categories, the National Agricultural Library vocabulary, and other aspects of library services, especially those of assembling, storing, and announcing literature of the profession. The Committee report recommended the establishment of a center to (1) acquire literature written by agricultural economists in the United States and Canada; (2) prepare bibliographic data, copy abstracts, and index; (3) make computer tape available to the association and interested parties every two months; (4) maintain master tape with accumulated data from bi-monthly tapes; and (5) perform computer searches on request and at cost.

The association's primary role was to publish the bibliography every two months. The Committee on Literature Retrieval was supplanted by the Editorial Board of the American Bibliography of Agricultural Economics to provide direction. The President signed an agreement establishing the Agricultural Economics Documentation Center with the American Association of Agricultural Economists, the National Agricultural Library, the Economic Research Service, and the Statistical Reporting Service cooperating.

Publication of the American Bibliography of Agricultural Economics was a slow process. It also proved costly. It was discontinued in 1974 at the end of Volume 4. Since then, the emphasis has been in getting the citations and abstracts on line and tied into the CAIN system of the National Agricultural Library. The system, complete with computer printouts, was demonstrated at the 1976 annual meeting of the association.

Although topics of special attention waxed and waned - as marketing, for example, came into prominence after World War II and then faded - on the whole the association expanded the scope of its interests. Agri-business economists had long been a relatively small but integral part of the association, but the liaison had never been entirely satisfactory. In 1966 an Industry Committee was named to work at achieving better communication.

Likewise, the earlier AFEA and the later AAEA and both taken an interest in the international aspects of agriculture. Only in 1967 was the International Research Committee formed. The Industry and International committees have at various times separately or jointly staged special dinner sessions at annual meetings.

Another facet of international matters was the beginning of funding for fellowships to the triennial meeting of the International Association of Agricultural Economists. The practice began when the general membership voted in 1963 to appropriate \$5,000 to provide 7 to 10 fellowships to finance travel to the 1964 AAE meeting in France.

If at one time the association devoted much attention to the conduct of research, on other occasions it has expressed concern and even regret at its limited contribution to improving performance in teaching the subject matter of agricultural economics. Special symposia have been held occasionally. One at Blacksburg, Virginia in August 1966 resulted in a publication issued as Part II on the AJAE of February 1967; and a symposium at Gainesville, Florida in August 1972 was published as Part II of the November 1973 issue.

Until recently the demand for agricultural economists had increased more rapidly than the supply. With expansion of existing and new graduate programs and the changing nature of advanced training required to meet rather specific job descriptions, it became obvious that the traditional professional job market which had operated largely within the "old school tie" system was no longer workable. This prompted the establishment of an employment service which would be made available at the summer meetings of the AAEA.

The system was manually operated for four days per year in a single location. It proved to be clumsy, inefficient, and unsatisfactory both for employers and prospective employees. Neither job openings nor applicants were known in advance and the cost of traveling to the meeting were discriminatory. In 1969, a special committee was appointed to study this problem and recommend changes. As a result, the AAEA conducted a feasibility study financed by the U.S. Department of Labor to estimate the cost of alternative automated systems and to develop criteria for evaluating the performance of such a system. On the basis of that study, the AAEA undertook a project with additional funds provided by the Department of Labor to develop, implement and evaluate an experimental employment service for agricultural economists. The system has been operational since September 1974 and the reaction from employers and job applicants strongly suggested that the computer-based system provided a useful and effective service. It has helped to reduce market imperfections and increased both the scope and breadth of the market for agricultural economists.

Through its 66 years, the American Agricultural Economics Association has seen vast changes in the scope of the profession. Its membership has been varied, and its program has adjusted to meet changing interest. At the same time, the leadership given by the association has helped to give form and content and has brought professionalism to the field of agricultural economics. Looking ahead, it may be well to remember the words of T. N. Carver, who, in 1912, described agricultural economics at that date as "an aspiration." Is it not true that the solution of many of the major economic problems affecting agriculture is still an aspiration?

AMERICAN AGRICULTURAL ECONOMICS ASSOCIATION

HISTORICAL UPDATE, 1976-1981^a

Several significant events mark this six year period as important in the history of the American Agricultural Economics Association. The operations of the Association became financially secure, an employment registry and job service were securely established, a new publication, the Newsletter was introduced, a computerized literature retrieval service replaced the American Bibliography of Agricultural Economics, three volumes of Agricultural Economics Literature reviews were published, the business office of the Association was moved to Iowa State University, the membership records became computerized, and two minority committees were organized.

Membership in the Association remained relatively stable during this period. No real growth is evident. The number of members ranged between 3950 and 4460. These figures include institutional members which averaged near 40. Of these about 19 percent are foreign (not U.S.). Subscribers and businesses ranged between 1936 and 2074. Foreign subscribers outnumber U.S. subscribers about two to one. The average total number of Journals going to members and subscribers was near 6200. The large increases in memberships occurred during the 1950's and continued into the 1960's.

The years just preceding 1976 were plagued with budget deficits. It wasn't that expenses were out of line but rather that incomes were insufficient to pay for the real needs of the Association. President James Nielson appointed a committee chaired by Bernard F. Stanton in 1975 to study the finances of the Association and make recommendations. The committee recommended a dues increase from \$15.00 for regular members to \$25.00 and for subscribers from \$25.00 to \$35.00. Suggestions were made for tightening the budgeting process and improving investment operations. The increase in dues went into effect beginning in 1976 and has remained constant since that time. Other actions to increase revenues which followed included an increase in page charges for the Journal to \$40, advertising rates to \$210 per page, single copies of the Journal to \$10, and keeping all monies invested. A Finance Committee replaced the Investment Committee and a Investment Subcommittee was named. These actions plus some favorable market trends and high interest rates moved the Association to a strong financial position capable of paying for needed operations. However, given high inflation and rapidly increasing costs pressure is again rising for a dues increase.

A renewed effort, was begun in 1976 to increase the attractiveness of the Association, not only to bring in new members but also to make it seem worthwhile and special to current members. The Executive Board under President Bonnen adopted the policy that assignment on committees be limited to members, higher registration fees at annual meetings be charged to nonmembers, the privilege of giving contributed (selected) papers be limited to members, and, generally, invited papers and addresses be given by members.

The ending of this period brought to a close eight years of contracts with the U.S. Department of Labor to establish a National Employment Registry for Agricultural Economists. This effort began in 1974 under the leadership of Joseph Ackerman and Loys Mather. A total of \$181,933 has been received. The Registry started with Illinois State Employment Service (now Illinois Job Service) and now seems well established there. The last USDL support was used in 1981 to pay for a new survey of members to revise and update employment information. The current emphasis is in expanding the numbers of member and employer listings to enhance the usefulness of the registry.

The American Bibliography of Agricultural Economics (ABAE) which was begun in 1971, and not published after 1974, was completely phased out in 1981 with the disposal of unsold inventories. The American Agricultural Economics Documentation Center (AAEDC) turned its attention to a computerized data file and since January 1976, AG-ECON

^a Summarized by: Sydney C. James, Secretary-Treasurer, 1981.

(Agricultural Economics) has been available on-line as part of the AGRICOLA (Agricultural On-Line Access) family of data bases maintained by the USDA Technical Information Systems (TIS), formerly the National Agricultural Library. A subfile of AG-ECON, COINS (Co-operative Information System), became available in early 1978. COINS contains citations on Canadian Cooperatives and cooperative literatures authored or published in Canada. AG-ECON, COINS, and the parent file, AGRICOLA, comprise the largest, most complete and up-to-date bibliographic source of information on agricultural economics in existence. These files may be accessed by most Federal and university libraries, by telephone and in writing. Workshops have been held by the Literature Retrieval Committee in cooperation with AAEDC to explain and promote its services. The Association helps fund the AG-ECON.

Three volumes of A Survey of Agricultural Economics Literature were published during this period with the fourth and last volume in the final stages. Emerson M. Babb has served as chairman of the Postwar Literature Review Committee and Lee R. Martin is the general editor. Volume 1, "Traditional Fields of Agricultural Economics, 1940s to 1970s" was published in 1977. Volume 2, "Quantitative Methods in Agricultural Economics, 1940s to 1970s" was also published in 1977. Volume 3, "Economics of Welfare, Rural Development, and Natural Resources in Agriculture, 1940s to 1970s," was published in 1981. All of these volumes have been well received. Volume 4, "Organization and Performance of Agricultural Markets," is anticipated to be published during 1982. The University of Minnesota Press was selected as publisher with discounts to members.

The possible publication of a second journal has been on the Association agenda many years. Study committees have been formed and editors have responded that all segments of the membership have access to the American Journal of Agricultural Economics (AJEA). An Alternative Publication Committee was appointed by President James Bonnen and reported to the Board in 1977. The publication of a Newsletter was recommended and approved. Also, contributed (selected) and symposia papers were to be made available through AAEDC and University Microfilms. Both of these actions became a reality. The Newsletter, began in 1979 and is now published bimonthly. It includes messages from the President, announcement of programs and meetings, committee reports, employment opportunities, obituaries, personnel actions, book reviews, advertisements, etc. and features a "viewpoint" section. The structure of the AJAE did change somewhat with nonproceedings issues being divided into two major sections, articles and notes. This gave room for more entries and broader coverage. However, the above actions have not satisfied those desiring a more applied publication. At this writing another committee is being formulated to again study this matter and make recommendations to the Board.

Several efforts were made to define more clearly and precisely the duties of the President, President-Elect, Past President, Secretary-Treasurer, Directors and even committee chairpersons. The first of these actions created a third administrative document, "Policies of the Executive Board." This document is more flexible and descriptive and provides the directions for administering the Bylaws and Constitution. It has been changed and enlarged since its beginning in 1977. During this period the Board became a "Program Planning Committee" for the annual meetings under the guidance of the president-elect. The president in cooperation with the president-elect and past president selects the symposia and the president selects topics and persons for invited addresses. The president-elect gives the presidential address. The past-president is the Board's representative on the Fellows Selection Committee and chairs the Nomination Committee and is responsible for updating the Association administrative documents. Details of the work of the secretary-treasurer were listed and now appear in the "Policies" document.

A major undertaking began with President Kenneth M.T. Farrell's appointing of a Task Force on Operational Data Base for AAEA Activities in 1979. The reports which resulted were presented to the Board in the summer of 1980. The purpose of these reports was not to recommend changes but rather to detail the many involvements of the Association. A person unfamiliar with the Association can gain considerable insight to its operation, involvements and responsibilities by studying these documents. Because the Association was looking for a new home for its business office and selecting a new

secretary-treasurer, this work was extremely timely. The task of developing job descriptions continues.

Three editors served the Association during this time. V. James Rhodes, University of Missouri, was selected to begin serving in 1978 replacing William G. Tomek, Cornell University. Rhodes initiated the Newsletter. Beginning in 1981, James Houck, University of Minnesota, took over the huge editorial task. The transition went smoothly. Heffernan Press continues as printer of the AJAE. An effort began in 1981 to reduce the large inventory of certain issues of the AJAE which were causing needless warehousing costs.

During the 1978-79 period the Board explored a new business office arrangement. For 10 years John Redman had capably served on a part-time basis as secretary-treasurer. The University of Kentucky had been furnishing free space and services. Administrators at the University of Kentucky gave written notice that a change needed to be made. One proposal was for the Secretary-Treasurer to become a full-time position of the Association. The Association had never had an employed executive staff and the Board decided to consider other alternatives. Several proposals were received for a new business office. The offer from Iowa State University was accepted and Sydney C. James became the new Secretary-Treasurer beginning in 1981. The business office is now housed at Iowa State University with James as Director and Wesley Ebert as Associate Director. Redman was honorably recognized with a plaque and citation at the 1981 annual meetings at Clemson University.

The computerization of membership records had long been called for. Those who worked in building the National Employment Registry for Agricultural Economists (Professional Registries and Employment Committee) from the beginning envisioned merging the membership file and the registry file. This was viewed as the data base for the handbook-directory. This never happened mainly because the Registry did not attract a large enough percentage of the membership and the difficulty of updating the file with current membership information. The membership records did become computerized during 1981 and this handbook-directory was largely computer printed. The arrangement now is for the business office to cooperate with the Registry in referring new members to its' services. The Registry did provide data tapes to help build the business office data file. But the business office data file is now independently developed and maintained. Except for new membership it is an update process. Not only is the file capable of providing information for the handbook-directory but also for many other useful tabulations for the Board and its many committees.

A cooperative dues billing procedure began in 1981 and was continued in 1982. Members of the Northeastern Agricultural Economics Council and the Western Agricultural Economics Association can now pay their area dues with their national dues. This arrangement has increased memberships in both of these area associations. The Southern Agricultural Economics Association will be added in 1983.

Two important new committees were added in 1981 when the ad hoc committees established by President Luther Tweeten, "Opportunities and Status of Women in Agricultural Economics" and "Opportunities and Status of Blacks in Agricultural Economics," were voted to become special committees of the Association. Ardelle Lundeen became the chairperson for the women's committee and Sidney H. Evans the chairperson for the black's committee. Both moved forward rapidly identifying members and researching their activities. The women conducted one of the invited papers session in 1981 and met to organize for 1982. They published their first COWOP News. The committee chaired by Sidney Evans is preparing an extensive survey of black agricultural economists.

The undergraduate student side of the Association continued to make modifications in an effort to attract more student attention and give due recognition to this ever changing group. They now have a new set of Bylaws which were approved in 1981. Their Constitution was revised in 1980. One of the changes was a separation of the advisory group from the Resident Instruction Committee. The latter is appointed by the President of AAEEA whereas the advisory group are selected by the SS-AAEEA officers. The Resident Instruction Committee now devotes its attention to symposia, workshops and other items which are aimed at improving the teaching of agricultural economics. They

support SS activities and aid in the chartering of local chapters. A successful seminar, "Dimensions in Teaching Agribusiness Management, Farm Management and Agricultural Policy," was held at Southern Illinois University in 1980 and a follow-up symposium was conducted at the annual meeting in 1981. Also, a new "Careers" brochure was developed and is now available through the business office.

Looking forward to the next five years finds a time for celebration. In 1985 the Association will have been organized 75 years. The annual meeting will be held at Iowa State University (then College) where it all began in 1910.

American Agricultural Economics Association

CONSTITUTION

Article I.

NAME

The name of this corporation, hereinafter referred to as the Association, shall be the American Agricultural Economics Association.

Article II.

OBJECTS

The object of the Association is to further the development of systematic knowledge of agricultural economics. As a professional organization, the Association shall pursue this object by facilitating scientific research, instruction, publications, meetings and other activities designed to advance and disseminate knowledge in agricultural economics. The Association shall encourage freedom of economic discussion and shall not commit its members to any position on economic policy issues.

Article III.

DISPOSITION OF FUNDS

Section 1. **Liquidation, dissolution or winding up.** In the event of liquidation, dissolution or winding up of the Association, whether voluntary, involuntary or by operation of law, any disposition made of the assets of the corporation shall be such as is calculated by the executive board exclusively to carry out the educational purposes for which the corporation is formed.

Section 2. **Net Earnings.** No part of the net earnings of the Association may inure to the benefit of members thereof, and the corporation shall be operated as a non-profit organization.

Article IV.

MEMBERSHIP

Section 1. **Qualifications.** Any person having a professional interest in agricultural economics shall be eligible for membership in the Association, and may become a member thereof by making proper application to the secretary-treasurer and by paying dues as prescribed.

Section 2. **Classes of members.** The executive board may establish various classes of membership in the Association, each having such rights and privileges as shall be prescribed in the Bylaws. Such classes of membership shall include regular members, junior members and such other classes of membership as shall be established by the executive board.

Section 3. **Joint application and payment of dues.** The executive board may enter into arrangements with other regional and national organizations interested primarily in furthering the development of systematic knowledge of agricultural economics for the purpose of establishing joint applications for membership and joint payment of dues to this Association and such other organization or organizations.

Section 4. **Resignation of members.** Any member may at any time file his or its resignation in writing with the secretary-treasurer of the Association, which resignation shall become effective as of the date received by said secretary-treasurer.

Section 5. **Termination of membership.** The executive board may terminate the membership of any member for nonpayment of dues.

Section 6. **Cessation of property interest.** All right, title and interest, both legal and equitable, of any member in and to the property of the Association shall cease and determine in the event of termination of membership or resignation.

Article V.

EXECUTIVE BOARD

Section 1. **How constituted.** There shall be an executive board of the Association. The board shall consist of the president, president elect, the most immediate past president available

and six (6) members who shall be hereinafter referred to as directors, all of whom shall be members in good standing of the Association and who shall be selected as hereinafter provided. The secretary-treasurer, the editor of the official journal of the Association and, upon designation by the executive board, the presidents of any national or regional associations, shall be members ex-officio (non-voting) of the executive board.

Section 2. Selection of members. The president and president-elect shall be selected as hereinafter provided for election to the respective offices. Directors shall be elected by the members of the Association at large. No member of the Association shall be eligible for election as a director after having served one full term as a director. Director positions shall be divided into three classes of two positions each. Except for the initial terms which shall be for a shorter period, the term of the members of each such class shall be for a period of three years or until their successors shall have been chosen and qualify. The terms shall be so arranged that one class of two members is elected each year. Initially, it shall be determined by lot after elections have been held which members shall serve out the respective terms. The term of office for directors shall commence immediately following the annual meeting in the year in which elected. Two candidates shall be nominated for each director position to be filled. The person receiving a plurality of votes for each director position shall be declared elected. A tie vote shall be resolved by chance, conducted under the supervision of the election tellers, and reported to the executive board.

Section 3. Vacancies. If any vacancy shall occur on the executive board for a member serving on such board as an officer of the Association, such vacancy shall be filled as hereinafter provided for filling officer vacancies. For vacancies of director positions existing by reason of resignation, death, inability to serve, election as an officer of the Association or otherwise, the executive board shall appoint a member of the Association in good standing to serve until an election may be held in connection with the next regularly scheduled election at which time the unexpired term, if any, shall be filled by election of the members of the Association. The executive board shall determine when vacancies exist on such board and shall take appropriate action to fill such vacancies as herein provided.

Section 4. Meetings. The executive board shall meet at least once annually with one meeting held in conjunction with the regular annual meeting of the Association. Special meetings shall be called by the secretary-treasurer upon the request of five or more members of the executive board, or may be held at the call of the president of the Association.

Section 5. Power of the executive board. Subject in all respects to the authority and discretion of the general membership of the Association and except as otherwise provided, the executive board shall be the administrative body of the Association and shall have the power and authority to do and perform all acts and functions necessary for operation of the Association.

Section 6. Voting. At any meeting of the executive board, a majority of the members thereof having voting rights shall constitute a quorum. The act of a majority of the executive board present at a duly called meeting at which a quorum is present shall be the act of the executive board. Any action required or permitted to be taken by the executive board at a meeting or by resolution may be taken without a meeting if a consent in writing, setting forth the action so taken, shall be signed by all voting members of the executive board then in office.

Article VI.

OFFICERS

Section 1. Elected. The officers of the Association shall consist of a president, president-elect and the most immediate past president available. The president-elect shall be elected by a vote of the members of the Association having voting rights by mail ballot and shall serve for the year beginning with the adjournment of the annual meeting at which his election is announced and ending with his accession to the presidency at the adjournment of the next annual meeting. In the event of death, incapacity or inability to serve of the president-elect of the preceding year, as determined by the executive board, a president shall be elected for the forthcoming year by vote of the members of the Association having voting power by mail ballot or by vote of the members of the Association at the annual meeting and shall serve for the year beginning with the adjournment of the annual meeting, or, in the case of a mail ballot, following his election and ending with the adjournment of the next annual meeting. After once serving a full term as president-elect no member shall thereafter be eligible to

again serve in that office. The president shall serve for a term of one year commencing with the adjournment of the annual meeting following the period of service as president-elect and ending with the adjournment of the next annual meeting. The persons receiving a plurality of votes for elective offices to be filled shall be declared elected. A tie vote for any office shall be resolved by chance, conducted under the supervision of the election tellers, and reported to the executive board.

Section 2. Appointed. The executive board shall appoint a secretary-treasurer and an editor for the official journal of the Association, both of whom shall serve for one-year terms and may succeed themselves in office.

Section 3. Qualifications. All nominees for the elective and appointive officer positions and all individuals serving in such positions must be members in good standing of the Association.

Section 4. Vacancies and succession. In the event of death, incapacity or inability of the president to serve, as determined by the executive board, the president-elect shall become acting president and shall succeed to the office of president upon completion of the remainder of the term as acting president. If the president-elect is unable to become acting president because of death, incapacity or inability to serve, as determined by the executive board, the executive board shall select from among the directors an acting president who shall serve in that capacity for the unexpired term.

Section 5. Duties. The officers of the Association shall perform the duties usually performed by such officers, together with such duties as shall be prescribed by action of the general membership and the executive board. The president of the Association shall preside at all meetings of the general membership and of the executive board. All elective officers of the Association shall serve without compensation. In the event of disability of the president to perform his duties or his absence from any meeting of the general membership or the executive board, the president-elect shall perform the duties of the president during the continuance of such disability or absence. In the event of disability of the president-elect or his absence, the duties of the president shall devolve upon a director to be selected by the executive board until and unless any vacancies may be filled as hereinbefore provided.

Article VII.

NOMINATION TO ELECTIVE OFFICE

Section 1. Nominating Committee. The president, with the executive board concurring, shall appoint a nominating committee each year, this committee to consist of the most immediate past president available as chairman and not less than three other members of the Association. The names of the committee members shall be published in the next issue of the official journal of the Association immediately following their appointment, together with an invitation to the general membership that suggestions of nominees for the various elective offices be sent to the chairman of the committee. The nominating committee should take cognizance of the need for geographical, functional and organizational representation on the executive board.

Section 2. Nominees. The nominating committee for each year shall be instructed to present to the secretary-treasurer of the Association the names of two nominees for each elective office to be filled including each director position.

Article VIII.

FELLOWS

In recognition of distinguished contributions to agricultural economics, the title "Fellow of the American Agricultural Economics Association" may be conferred upon individuals elected according to procedures specified in the ByLaws.

Article IX.

DUES

Changes in amounts of dues shall be initiated by or through the executive board. Changes in dues for regular members and junior members shall be submitted to the general membership for approval at the annual meeting.

Article X.**ANNUAL MEETING**

Section 1. Scheduling and notice. There shall be held an annual meeting of the general membership of the Association at a time and place established by the executive board and such other meetings as the executive board may determine. Notice of each meeting shall be mailed to each member at least four weeks in advance of said meeting as directed by the executive board.

Section 2. Voting and Quorum Requirements. Fifty members of the Association at any duly called and convened meeting of the Association shall constitute a quorum. Each member of the Association having voting power shall have one vote; voting by proxy shall not be permitted. A majority of the votes cast at any meeting of the Association at which a quorum is present shall be determinative of the issue or resolution except as otherwise specifically provided herein.

Article XI.**COMMITTEES**

Section 1. Creation. The executive board may provide for the creation of special committees in accordance with the needs of the Association. Standing committees shall be created by vote of the general membership.

Section 2. Membership. Members of special and standing committees shall be appointed by the president of the Association.

Article XII.**BYLAWS**

Bylaws may be adopted, amended or rescinded by the executive board by a majority vote of the members thereof present at a meeting at which a quorum is present and at which the same is voted on.

Article XIII.**AMENDMENT OF CONSTITUTION**

This constitution may be amended by the affirmative vote of two-thirds of the members having voting rights present and voting at any annual business meeting of the Association at which a quorum is present, or by majority vote of members of the Association returning ballots by mail.

Article XIV.**RATIFICATION**

This Constitution shall be effective upon ratification either by two-thirds vote of members of the Association present and voting at any annual business meeting of the Association at which a quorum as defined herein is present, or by majority vote of members returning ballots by mail. Ratification of this Constitution shall serve to repeal all prior Constitutions and Bylaws of this Association or predecessor organizations, except as otherwise provided for a transitional period. Upon ratification, this Constitution shall be and become effective commencing January 1, 1968, provided ratification has been accomplished on or before that date and, if not, it shall become effective on January 1 following the date of ratification, and shall be effective prior to such date to the extent needed for purposes of nominations to be made for election to offices of the Association during 1968 or such other year as may be the first full year after ratification. Said ratification shall also constitute approval for the incorporation of the Association as a non-profit corporation and filing of application from exemption from taxation under section 501 of the Internal Revenue Code of 1954 as directed by the executive committee of the predecessor organization.

AMERICAN AGRICULTURAL ECONOMICS ASSOCIATION

BYLAWS, AUGUST 1981

Article I

The business office of the Association shall be the business address of the secretary-treasurer of the Association. The registered office of the Association shall be the Department of Economics, Iowa State University, Ames, Iowa, and the registered agent at such address shall be Neil E. Harl.

Article II
MEMBERSHIP

Section 1. Application for membership. Any person, firm, corporation, association group or partnership eligible for membership in one or more classes of members a hereinafter provided may file with the secretary-treasurer of the Association an application for membership in said class or classes of membership. Upon payment of dues a prescribed for the particular membership class, and upon acceptance of the application for membership, the applicant shall be considered a member in good standing of the Association.

Section 2. Classes of members. The membership of the Association shall be comprised of four classes.

(a) Regular members shall be entitled to all benefits of Association membership and shall have one vote each at any meeting of the Association.

(b) Junior members shall be entitled to all benefits of Association membership and shall have one vote each at any meeting of the Association. Junior membership shall be open to individuals who are actively pursuing study at a college or university and shall be limited to a maximum of five years for each such member. Application for junior membership must be countersigned by the head or chairperson of the major department in which the applicant is enrolled as a student, or by a member of the Association, which countersignature shall attest to current student status.

(c) Senior members shall be entitled to all benefits of Association membership and shall have one vote each at any meeting of the Association. Senior membership shall be open to individuals, upon written request, who are 65 years of age or older and have retired from active professional work.

(d) Each institutional member shall have voting rights, with one vote accorded each such institutional member. Any person, firm, corporation, association, group or partnership may become an institutional member upon payment of such sum as may be fixed from time to time by resolution of the executive board. Voting rights of institutional members who are other than individuals may be exercised by the president of such firm, corporation, association, group or partnership, or by that president's designated representative. Each institutional member may designate up to three (3) representatives who shall be regarded as, and enjoy the same privileges of, regular members except for voting rights as hereinbefore provided.

(e) Family members shall be entitled to all benefits of membership except that individuals holding family membership shall not be entitled to receive, as a membership right, copies of the official journal of the Association or the official newsletter of the Association. Family membership is open to spouses of regular members and to additional family members who are under the age of 18 and who are members of the household of regular members.

Section 3. Active members. Those members who have paid their dues for the current year are 'active members' in good standing and are eligible for all rights and privileges of Association membership.

Article III
ASSOCIATION DUES

Section 1. Scale of dues. Each member shall pay Association dues in United States dollars or equivalent for each year from January 1 to December 31 following, payable on or before January 1 of each year in advance. The amounts of dues shall be as follows for each class of membership:

- (a) Regular Membership ----- \$ 25.00
- (b) Junior Membership ----- \$ 12.50
- (c) Senior Membership ----- \$ 12.50
- (d) Institutional Membership ----- \$100.00
- (e) Family membership (per family member)----- \$ 12.50

The above amounts of dues shall include the individual subscription of the member to the official journal of the Association and the official newsletter of the Association except for family membership as specified in Article I Section 2(e). Members of the Association and non-member subscribers to the official journal of the Association and the official newsletter of the Association shall be charged an additional \$4 per year to cover the cost of mailing the journal to locations outside the United States, Canada and Mexico. The executive board may from time to time establish surcharges for expedited mailing of other items on an individual or subscription basis.

Section 2. Default in payment. Membership for any calendar year shall become delinquent as of January 16 of that year if dues are not paid prior to that date.

Article IV SELECTION OF FELLOWS

Section 1. Title. The Title of the award shall be "Fellow of the American Agricultural Economics Association."

Section 2. Criteria for selecting Fellows. The main consideration shall be continuous contribution to the advancement of agricultural economics. Achievements may be in the field of research, teaching, extension, administration or business.

Section 3. Nomination. Any member of the Association may nominate any living member for the honor of election as Fellow by submitting the name to the secretary-treasurer of the Association prior to a date to be announced (preceding the election each year) in the American Journal of Agricultural Economics or any other communication to the membership. Any member making a nomination should be prepared upon request to submit biographical information in twelve copies in support of the nominee. A nominee must be a current member of the Association in good standing or have been a member thereof for at least ten years.

Section 4. Candidates. The executive board of the Association shall select candidates from the nominees (approximately twice the maximum number to be elected) and present the list of candidates to the Fellows Election Committee of the Association together with supporting biographical data for each.

Section 5. Election. The Fellows Election Committee shall select the Fellows, not to exceed four in any one year, from the nominees submitted by the executive board of the Association.

Section 6. Reporting election. The chairman of the Fellows Election Committee shall report to the president and the secretary-treasurer of the Association at least 60 days before the annual meeting the names of the newly elected Fellows.

Section 7. Announcement of election. The names of the newly elected Fellows shall be announced at the annual meeting of the Association by the president of the Association or his appointed representative, who shall read a statement regarding the achievements of each Fellow and shall present a certificate of recognition to the person so honored. The statement regarding achievements shall be published in the proceedings issue of the official journal of the Association.

Section 8. Fellows Election Committee. The Fellows Election Committee shall operate with a chairmanship revolving annually and shall be composed of five Fellows and a designated representative of the executive board. The Fellows on the Fellows Election Committee shall be selected as follows:

- (a) Each year the president of the Association shall appoint a member from among the Fellows for a five-year term to replace the member whose term expires.
- (b) The president shall appoint members to fill unexpired terms if vacancies occur during an incumbency and in so doing shall designate the unexpired portion of the term for which each appointment is made.
- (c) Each year the president shall appoint among members of the committee the chairman of the committee.
- (d) The president may appoint a secretary for the Fellows Election Committee who need not be a member of the Fellows Election Committee or a Fellow of the Association.

Article V AWARDS PROGRAM

The awards program of the American Agricultural Economics Association has evolved over a number of years to recognize and enhance professional excellence in several sub-fields of the discipline of Agricultural Economics. Nominations recognize professional achievement at the student, the young professional, and the more experienced status, in research, teaching, and extension activities.

Section 1. Distinguished Extension Programs. The Distinguished Extension Program awards recognize achievement of excellence in extension economics teaching programs. Two awards are given—one for an individual and one for a group.

Nominations may be made by any member(s) of the AAEA and selection is made from among those nominated. The nominee(s) must have been active in extension teaching within one year of the nomination and the content of teaching efforts must be principally in the field of agricultural economics. Renominations are invited if supporting materials are brought up to date and resubmitted. Each nomination must be made by separate letter accompanied by eight (8) copies of documentary evidence indicating:

- (a) Nominee's name and extension title,
- (b) Extension program area in which teaching is conducted,
- (c) Identification of the clientele served,
- (d) Objectives of the educational program,
- (e) Teaching techniques, educational methods, and materials utilized; and
- (f) Effectiveness of the extension teaching effort in terms of clientele response and/or establishment of the utility of the extension teaching program.

Section 2. Distinguished Undergraduate Teaching. The Distinguished Undergraduate Teaching awards have been established to recognize and encourage meritorious performance in undergraduate teaching in agricultural economics. Two awards are given as follows: One for an undergraduate teacher with less than 10 years of experience. One for an undergraduate teacher with 10 or more years of experience.

Nominations may be made by any member(s) of the AAEA and selection is made from those nominated. Renominations are invited if supporting materials are brought up-to-date and resubmitted.

- (a) Nominees must be actively engaged in teaching at a professional level during the school year during which the nomination is made.
- (b) Nominees must have demonstrated outstanding ability as an undergraduate teacher of agricultural economics.
- (c) The committee chairman provides a standard nominating form to department heads and chairman specifying nominations procedures, number of copies of documentation evidence, etc.
- (d) Supporting evidence plus letters of reference from peers and students are limited to three pages for each category of evaluation.

Section 3. Outstanding Master's Thesis Award. The Outstanding Master's Thesis awards have as their objective development of professional excellence by individuals writing Master's theses in agricultural, natural resource, or rural economics. Three awards are given. A cash supplement of \$250 accompanies each award.

Nominations may be made from any department in which students write Master's theses in the areas of agricultural, natural resource or rural economics.

- (a) An entry must be submitted by the head or chairman of the department where the degree is earned.
- (b) A department may submit one nomination for each 15 Master's theses or fraction thereof presented to a graduate school faculty in the calendar year preceding the year of recognition. In determining the number of eligible theses, departments should limit consideration to theses in the areas of agricultural, natural resource or rural economics.
- (c) Nominations should include thesis or other comparable documentation.
- (d) Selection will be made from documentation approved in final form by the student's advisory committee. The thesis will be eligible for the competition in the calendar year following the one in which the thesis was accepted by the graduate school or division of the degree granting institution.
- (e) A published thesis may be entered in both the published research and Master's thesis classes but is eligible for only one award. Although a published thesis is acceptable, a copy of the thesis as submitted to the graduate faculty should be sent whenever possible.

- (f) Three copies of a thesis (or comparable document) must be sent to the subcommittee chairperson. All copies are returned after they have been read by the judges.

Section 4. Outstanding Doctoral Thesis Award. The Outstanding Doctoral Thesis awards are given in recognition of development of professional excellence by persons writing doctoral dissertations in agricultural, natural resource or rural economics. Three awards are given accompanied by a cash supplement of \$250 each.

An entry must be submitted by the head or chair of the department where the thesis or comparable document was presented in partial fulfillment of requirements for a degree.

- (a) A department may submit one nomination for each 12 doctoral theses or fraction thereof presented in agricultural, natural resource or rural economics to a graduate school faculty in the calendar year preceding the year of recognition. In determining the number of eligible nominations, departments should limit consideration to theses in the areas of agricultural, natural resource, or rural economics.
- (b) Selection will be made from documentation approved in final form by the student's advisory committee. The thesis will be eligible for the competition in the calendar year following the one in which the thesis was accepted by the graduate school or division of the degree granting institution.
- (c) A published thesis may be entered in both the published research and thesis categories but is eligible for only one award. Although a published thesis is acceptable, a copy of the thesis as submitted to the graduate faculty should be sent whenever possible.
- (d) Three copies of a thesis must be sent to the subcommittee chair. All copies are returned after they have been read by the judges.

Section 5. Professional Publications. Four major awards are given to encourage excellence in types of publications in all areas of agricultural economics.

These awards include:

- Award for Quality of Research Discovery
- Award for Quality of Communication
- Award for Publication of Enduring Quality
- Award for Outstanding Journal Article

Each award program is administered by a subcommittee. Any publication authored or co-authored by a member of a specific subcommittee is ineligible for an award from that subcommittee. If an article is selected to receive both the Outstanding Journal Article Award and the Quality of Research Discovery or Quality of Communication Award, the matter shall be resolved by the chair of the Awards Committee in consultation with the recipient or recipients involved such that only one award is received.

(A) Quality of Research Discovery and Quality of Communication.

(1) General rules.

- a. No requirements regarding number of authors or professional experience is imposed.
- b. Nominations may be by individuals, departments or agencies.
- c. Nine copies of each publication should be submitted unless expense for the individual is excessive. Return of the publication is not customary but can be requested.
- d. Nominations should be submitted for only one category within which it is judged and must be so identified. A given article is eligible for only one award in either the quality of research discovery or quality of communication category.

(2) Quality of Research Discovery

- a. A maximum of two awards are given. Entries must specify that the nomination is to be judged for the quality of research discovery and must have been published in the calendar year preceding the year of recognition.

(3) Quality of Communication

- a. A maximum of two awards are given. Entries must specify that the entry is to be judged for its quality of communication and must have been published in the calendar year preceding the year of recognition.

(B) Publication of Enduring Quality. One award is offered for a publication which has a publication date in the 15-year period commencing ten full calendar years prior to the year of recognition. Entries are judged on the basis of the enduring quality of their contribution to the profession. Competition is focused on the publications themselves and not on the cumulative work of authors.

Eligible entries are articles in the AJAE (during the period considered, this was the JFE) whether or not the authors are Association members; and other publications by authors, one of whom was a member of the Association at the time of publication. Entries may be submitted by departments or other administrative units, by colleagues, or by the authors themselves. Publications receiving an award in any other category in previous years are eligible for this award.

(C) Outstanding Journal Article. The editors and editorial council of the American Journal of Agricultural Economics, with the editor as chairman, shall choose an outstanding article in the volume published in the year preceding the year of recognition. All articles and notes are automatically eligible for consideration except those based on award winning theses or publications, the president's address, and the fellow's lecture. An author can receive the award no more than once in any three-year period.

Section 6. Distinguished Policy Contributions. The distinguished policy contribution award recognizes an outstanding contribution to policy decisions or to the advancement of public and human welfare. Policy issues are interpreted in their broadest sense. They may relate to either a national or international situation.

Their focus may be on production, marketing or consumption. They include such things as price and income policy, environment and land-use issues, local government, rural poverty and community development problems. Purpose of the award is to encourage interest in economic analysis of public policy issues that can provide timely and relevant information for more effective public policy and program discussions. The award is intended to focus attention on important efforts in research, education or public service which facilitate the policy process and improve public performance and understanding. It may be given annually.

Nominations may be submitted by individuals, groups or institutions. In addition, the Distinguished Policy Contribution Award Committee is encouraged to generate nominations to assure that all outstanding policy contributions are considered. Winners will be selected on the basis of the supportive material showing major contributions within the previous five years. Renominations are invited provided the supportive material is updated. Each nomination must be made by separate letter accompanied by documentary evidence supporting the nominee's contributions to the development and/or understanding of public policy. Individual or group efforts may be nominated. In groups, the name and contribution of each person must be identified in the nomination. Eight copies of each entry should be submitted. Return of the material submitted is not customary but can be requested.

Section 7. General Recognition. Recipients of awards are presented at the Annual Awards Program of the Association at the annual meeting. Winners for all categories are identified in the annual meeting awards program brochure and in the Proceedings issue of the American Journal of Agricultural Economics.

Article VI DUTIES OF OFFICERS

Section 1. President. The president shall be the chief executive officer of the Association and, subject to the control of the executive board, shall in general supervise and conduct the business and affairs of the Association. He shall, when present, preside at all meetings of the Association and of the executive board. He shall have authority to sign, execute, and acknowledge on behalf of the Association, those instruments provided in Article VIII hereof and instruments necessary or proper to be executed in the course of the Association's regular business or which shall be authorized by resolution of the executive board. The president shall make appointments to special and standing committees and subcommittees created by action of the executive board or general membership. In consultation with the executive board, he shall be responsible for preparing a program for the annual meeting. In general, the president shall perform all duties incident to the office of president and such other duties as may be prescribed by the executive board from time to time.

Section 2. President-Elect. In the event of temporary disability of the president to perform his duties or his absence from any meeting of the general membership or of the executive board, the president-elect shall perform the duties of the president during the continuance of such temporary disability or absence as acting president, and when so acting shall have all the powers of and be subject to all the restrictions upon the president. The president-elect shall perform such other duties and have such authority as from time to time may be assigned to him by the president or the executive board.

In the event of death, incapacity or inability to serve as the president-elect, as provided in Article VI, Section 1 of the Constitution, the executive board shall determine giving due consideration to exigencies of time, whether the selection of a president shall be by vote of members of the Association having voting power by mail ballot or by vote of the members of the Association at the annual meeting.

Section 3. Secretary-Treasurer. The secretary-treasurer shall (a) keep the minutes of the meetings of the general membership of the Association and of the executive board in one or more books provided for that purpose; (b) see that all notices are duly given in accordance with the provisions of these Bylaws, the Constitution, Articles of Incorporation, or as required by law; (c) be custodian of the Association's records; (d) maintain the register of the post office address of members of each class; (e) certify resolutions; (f) have charge and custody and be responsible for all funds and securities of the Association, receive and give receipts for monies due and payable to the Association from any source whatsoever, endorse and deposit all such monies in the name of the Association in such banks, trust companies or other depositories as shall be designated by resolution of the executive board; (g) function as principal accounting officer in charge of books of account, accounting records, and forms of the Association; (h) maintain adequate records of all assets, liabilities and transactions of the Association; (i) obtain from other officers all reports needed for recording the general operation of the Association or for supervising and directing accounts; and (j) in general perform all of the duties incident to the office of secretary-treasurer and have such other duties and exercise such other authority as from time to time may be delegated or assigned to him by the president or the executive board. The secretary-treasurer shall be covered by a fidelity bond in an amount determined by resolution of executive board.

Section 4. Appointments. As an operating procedure, the executive board may reach agreements with appointees to the positions of secretary-treasurer and editor of the official journal of the Association for appointments of three to five years with the provision for an evaluation preceding reappointment each year and a performance review at the end of the three to five year appointment if an additional three to five year term is being considered. However, nothing in the agreement between the executive board and a candidate for either position shall be deemed to create a contractual obligations beyond that specified in the Constitution of the Association.

Article VII ELECTIONS

Section 1. Ballots. Not later than May 1 of each year, the secretary-treasurer shall mail by first class an official ballot and an official envelope to each member of the Association having voting rights as of January 16 of that year, as determined by the payment of dues for that year; and to each member of the Association who, though delinquent in payment of dues as of January 16 of that year, had paid the dues for that year as of April 1; and to each member of the Association who had become a member and paid dues for the year as of April 1. Said ballot shall provide for an opportunity to vote for a nominee for each elective office to be filled. The nominees for each director shall be listed and voted upon, independently from other positions on the executive board. For each elective office, the ballot shall contain one blank line for write-in candidates. A brief biographical sketch of each nominee selected by the nominating committee shall be included. To be counted by the tellers, the official ballot shall be returned in the official envelope which shall be marked on the outside thereof as follows:

"Official Ballot Envelope. Official Ballot of Officers and Directors of the American Agricultural Economics Association. This ballot must reach the secretary-treasurer not later than June 15 to be counted."

Prior to mailing of ballot materials to eligible voters, an identifying number shall be placed on each official ballot envelope sent. The secretary-treasurer may deviate from the above procedures for foreign membership if prescribed by the executive board.

Section 2. Tellers. The sealed ballots shall be opened by tellers appointed by the president. The results shall be reported to the executive board not later than July 1 and appropriately thereafter to the membership. The persons receiving a plurality of

votes shall be declared elected. A tie for any office shall be resolved by chance, conducted under the supervision of the tellers and reported to the executive board.

Article VIII COMMERCIAL TRANSACTIONS

Section 1. Endorsement of stock certificates. Any share or shares of stock issued by any corporation and owned by this Association may, for sale or transfer, be endorsed in the name of the Association by the president or the secretary-treasurer, subject to specific directions as to such sale or transfer by the executive board.

Section 2. Voting of shares. Any share or shares of stock issued by any corporation and owned by this Association may be voted at any shareholders' meeting of such corporation in person or by proxy by the president or the secretary-treasurer.

Section 3. Deposits. All funds of the Association not otherwise employed shall be deposited from time to time to the credit of the Association in such banks, trust companies, or other depositories as may be determined by resolution of the executive board.

Section 4. Execution of deeds, mortgages and releases. All deeds, conveyances, leases and mortgages of real property made by the Association shall be executed by the president, and all releases of mortgages, liens, judgments, and other claims that are required by law to be made a matter of record may be executed by the president or secretary-treasurer of the Association.

Section 5. Negotiable instruments. All checks, drafts, notes, bonds, bills of exchange, and orders for the payment of money of the Association must be signed by either the president or the secretary-treasurer.

Section 6. Borrowing money. The secretary-treasurer may borrow money up to a maximum total amount of twenty-five thousand dollars without further executive board authorization and may pledge as security there for stocks and securities of the Association as required.

Section 7. Purchase and sale contracts. The president shall have the authority to enter into written or oral contracts for the purchase and sale of goods and services on behalf of the Association. The secretary-treasurer may enter into written or oral contracts for the purchase of supplies, postage, printing services, and other goods and services reasonable related to operation of the office of secretary-treasurer.

Section 8. Advertising and promotion. The Association, its name and its various activities shall not be used for advertising or promotional purposes of a commercial or pecuniary nature, including the vending of a product or service.

Article IX FISCAL YEAR

The fiscal year of the Association shall begin on the first day of January and end on the thirty-first day of December in each year.

Article X ASSOCIATION MEETINGS

Section 1. Resolutions. All resolutions pertaining to policy matters presented from the floor at annual meetings of the Association for approval must be submitted as least one full day in advance to the executive board. The executive board shall report all such proposed resolutions and resolutions initiated by the executive board and the president to the general membership for action with appropriate recommendation for or against passage.

Section 2. Appropriations. All motions presented from the floor at annual meetings of the Association entailing, directly or indirectly, appropriation of monies of the Association, must be submitted at least two full days in advance to the executive board. The executive board shall report all such proposed motions to the general membership for action with appropriate recommendations for or against passage.

Section 3. Parliamentary authority. The rules contained in Roberts' Rules of Order Revised shall govern annual meetings of this Association in all cases in which they are applicable and in which they are not inconsistent with these Bylaws, the Constitution, the Articles of Incorporation, or applicable law.

Section 4. Program participation. The privilege of presenting and/or discussing contributed papers, invited papers, and invited addresses at Association meetings shall

be reserved for Association members, except in special cases in which the condition is waived by the president.

Section 5. Proceedings of annual meetings. The Proceedings shall be published annually as an issue of the Journal. The only papers guaranteed publication not subject to established reviewing procedure will be the Presidential Address, the Fellows Lecture, and a set of papers invited by the president, the number to be reviewed annually by the Board. Fifty-word abstracts of all other invited and contributed papers at the annual meetings will be published in the Journal without jeopardizing later acceptance in their entirety subject to regular review.

Article XI APPROPRIATIONS AND EXPENSES

Section 1. Annual budget. The executive board shall approve the annual budget for the Association, which approval shall constitute authorization for expenditure.

Section 2. Annual audit. The financial records of the Association shall be audited annually by a licensed certified public accountant.

Article XII COMMITTEES

Section 1. Standing committees. There shall be standing committees on:

Awards	Economic Statistics
Editorial Council	Extension
Fellows Election	Finance
Industry	International
Nominating	Professional Activities
Resident Instruction	Tellers
Membership & Institutional Membership	

Each standing committee may recommend to the executive board the creation of specific subcommittees.

Section 2. Special committees. There shall be such special committees as the executive board shall from time to time create by resolution.

Section 3. Ad Hoc committees. The president may from time to time create ad hoc committees whose existence shall terminate with the expiration of the president's term of office.

Section 4. Travel expenses for committee activities. Committees may incur travel expenses in connection with their assignments only as specifically authorized by action of the executive board, except that the president may at his discretion authorize travel expenses for an individual member in clearly unusual circumstances. In general, the Association does not assume responsibility for travel or other expenses associated with committee activities.

Section 5. Membership of committees. In general, membership on Association committees shall be limited to active members. The president shall appoint all members of Association committees annually for one year terms. Appointment, in general, shall be limited to three consecutive annual terms.

Section 6. Liaison representatives. In general, appointment to represent the Association shall be limited to active members. Liaison representatives shall be appointed by the president to a three year term. Appointment, in general, shall be limited to two consecutive terms.

Article XIII STUDENT SECTION

Section 1. Authority for Student Section. There is hereby created an organization within the Association to be known as the Student Section--American Agricultural Economics Association (hereinafter referred to as the SS-AAEA). The SS-AAEA shall function pursuant to a constitution which shall be developed initially by the SS-AAEA or a committee thereof, approved by a two-thirds vote of the SS-AAEA members present and voting at a meeting of the SS-AAEA at which a quorum is present, and then submitted to the Executive Board of the Association for approval. For purposes of this section, representation from at least twenty percent (20%) of the chartered chapters shall

constitute a quorum. Amendments to the constitution of the SS-AAEA shall likewise be submitted to a vote of the members of SS-AAEA under the voting and quorum rules hereinbefore specified and then submitted to the Executive Board of the Association for approval. The constitution of the SS-AAEA may provide for a statement of purposes, membership rules consistent with the Bylaws of the Association, selection of officers, duties of officers, and provisions for meetings, voting (including apportionment of voting rights on the basis of chartered chapters for all matters except for approval of the initial constitution of the SS-AAEA or any amendments thereto which shall require a vote of the members as herein provided), standing committees, and procedures for selection of advisors for the SS-AAEA. The Executive Committee of the SS-AAEA may develop bylaws containing internal governing rules for the SS-AAEA, which bylaws shall be submitted through the Resident Instruction Committee to the Executive Board of the Association for approval after the bylaws or amendments thereto have been approved by majority vote of the Executive Committee.

Section 2. Chartering of local chapters. Any Department of Agricultural Economics, Department of Economics having programs of undergraduate study in agricultural economics or agricultural business or any college or university or division thereof having programs of undergraduate study in agricultural economics or agricultural business, may make application to the SS-AAEA for the creation of a chapter of the SS-AAEA. Upon making such application, fulfilling requirements imposed by the Executive Committee and paying a charter fee of five dollars (\$5), such chapter shall be created by issuance of a charter by the SS-AAEA, signed by the president of the Association, the president of the SS-AAEA, and the SS-AAEA Sr. Advisor. Charters shall be issued initially for a term of five years and may be renewed for successive terms of five years each upon filing an application for renewal and payment of a renewal fee of five dollars (\$5) for each such renewal. For chapters chartered prior to January 1, 1965, such charters shall be deemed to expire on January 1, 1970, unless application for renewal is filed and renewal fee is paid prior to said date. Payments for original and renewal charter fees shall be made payable to the treasurer of the SS-AAEA who shall, upon approval and issuance of the Charter, deposit such payments in the authorized SS-AAEA account.

Section 3. Membership. Any undergraduate student majoring or minoring in agricultural economics, agricultural business or the equivalent in a college or university, or any member of a locally chartered chapter as hereinbefore provided, may become a member of the SS-AAEA. Members of a duly chartered local chapter shall be deemed automatically to be members of the SS-AAEA by virtue of membership in the local chapter. Membership certificates may be purchased by local chapter organizations from the SS-AAEA. An individual who is otherwise qualified for membership but who is not a members of a chartered chapter may become a member of the SS-AAEA by filing application with the treasurer of the SS-AAEA. Membership certificates shall bear the seal of the Association.

Section 4. Accountability of funds. All charter fees and other funds generated by the SS-AAEA shall be made payable to the treasurer of the SS-AAEA and transmitted to the treasurer of the SS-AAEA for recordation and consolidation. The treasurer of the SS-AAEA shall be bonded to an amount of at least one thousand dollars (\$1,000) by a general fiduciary bond. All payments from funds of the SS-AAEA shall be by check drawn by the treasurer of the SS-AAEA as drawer upon request such that the request shall be countersigned by the Sr. Advisor of the SS-AAEA or his or her designated representative. The SS-AAEA shall prepare a budget each year with the budget submitted through the Resident Instruction Committee to the Executive Board for approval prior to the beginning of the accounting period involved. An annual audit will be performed on the SS-AAEA accounts by a committee composed of one person appointed by the President of the Association, one representative of the SS-AAEA Executive Committee and one member of the Resident Instruction Committee. The audit will be performed at the annual meeting.

Section 5. Role and duties of the Resident Instruction Committee. The Resident Instruction Committee of the Association shall be responsible for supporting the activities of the SS-AAEA as an integral part of the Association as a professional organization; encouraging and supervising the chartering of local chapters of the SS-AAEA; transmitting bylaws of the SS-AAEA and all amendments thereto to the Executive Board of the Association; providing advice and counsel to the advisors of the SS-AAEA; communicating with and making recommendations to the Executive Board of the Association regarding the affairs and programs of the SS-AAEA; and such other duties as the Executive Board of the Association may assign. The Jr. Advisor as elected by the SS-AAEA shall be a member of the Resident Instruction Committee for a one year term to

facilitate communication with the SS-AAEA through the Resident Instruction Committee to the Executive Board of the Association.

Article XIV JOURNAL

Section 1. Role of Executive Board. The executive board shall:

- (a) Elect the editor of the American Journal of Agricultural Economics (hereinafter referred to as the Journal) from nominations made by the president.
- (b) Approve the criteria to be used in selecting members of the Editorial Council.
- (c) Determine long-run policies affecting the Journal, including copyright and related policies.
- (d) Approve the general content of special issues of the Journal.
- (e) Determine the annual budget for editorial operations and printing of the Journal.

Section 2. Role of the Editor. The editor shall:

- (a) Select the other members of the editorial staff and assistants
- (b) Determine the content of each regular issue of the Journal.
- (c) Determine the format of the Journal.
- (d) Determine operational policies for the position.
- (e) Attend each regular meeting of the executive board, or be represented thereat by the associate editor, with travel costs paid by the Association.

Section 3. The Editorial Council. Members of the editorial council shall be appointed by the President-Elect on recommendation of the editor. The editorial council shall select the paper to receive the award as the outstanding Journal article.

Section 4. Page charge. Major support for this Journal is provided by page charges of \$40 per printed page, or fraction thereof, payable by the supporting institution or granting agency. Payment does not affect acceptance, scheduling or form of publication. Instructions for making payment are provided with galley proofs.

Papers presented at the annual meeting of the Association and the joint meeting with the Allied Social Science Association, shall, if published in the Journal, be subject to page charges in the same manner as other Journal articles; except that the President's Address, Fellows Lecture and Invited Addresses at general sessions of the Association shall not be subject to page charges; and except further that page charges for papers presented at the annual meeting of the Association or the joint meeting with the Allied Social Science Association may be waived upon recommendation of the editor of the Journal with concurrence by the president of the Association.

• Article XV CONFLICT OF INTEREST

It is misuse of position for individual officers, directors and committee members to use the Association for personal gains of oneself or others. Such individuals should avoid involvement in decision-making activities that represent a conflict of interest with regard to the Association.

Article XVI AMENDMENTS

These Bylaws may be amended by a majority vote of the members of the executive board present at a meeting at which a quorum is present and at which the same is voted on.

ANNUAL MEETINGS AND OFFICERS
AMERICAN AGRICULTURAL ECONOMICS ASSOCIATION
formerly: American Farm Management Association and
American Farm Economic Association

Officers in charge of these meetings were elected at the preceding meeting

Beginning in 1969 the Executive Board was made up of the president-elect, president, past-president, and six directors. Each year a president-elect and two new directors are elected. Each newly elected person serves 3 years. Except for the first year (1969) two new directors are added each year. Hillman and Southern served only one year. Beginning with 1970 the listing shows only the newly elected directors. The president would have been elected the previous year and served one year as president-elect.

AWARDS PROGRAM

AMERICAN AGRICULTURAL ECONOMICS ASSOCIATION

Through its awards program the American Agricultural Economics Association recognizes professional excellence in agricultural economics. Awards are made for professional achievement at the student, the young professional and the more experienced levels in research, teaching, and extension activities. Awards are presented at the Awards Program during the annual meetings of the AAEA. Recipients are identified in the awards program brochure and in the December proceedings issue of the AJAE.

Selection of Fellows

In recognition of distinguished contributions to agricultural economics, the title "Fellow of the American Agricultural Association" may be conferred. The main consideration in the selection of individuals for this honor shall be continuous contribution to the advancement of agricultural economics. Achievements may be in the field of research, teaching, extension, administration or business.

Nomination: Any member of the Association may nominate any living member for the honor of election as Fellow by submitting the name to the Secretary-Treasurer of the Association. Any member making a nomination should submit biographical information in twelve copies of no more than eight pages each in support of the nominee. A nominee must be a current member of the Association in good standing or have been a member thereof for at least ten years.

Candidates: The Executive Board of the Association shall select candidates from the nominees (approximately twice the maximum number to be elected) and present the list of candidates to the Fellows Election Committee of the Association together with supporting biographical data for each. The Fellows Election Committee shall be composed of five Fellows and a designated representative of the Executive Board.

Election: The Fellows Election Committee shall select the Fellows, not to exceed four in any one year, from the nominees submitted by the Executive Board of the Association. The Chairman of the Fellows Election Committee shall report to the President and the Secretary-Treasurer of the Association at least 60 days before the annual meeting the names of the newly elected Fellows.

Announcement of Election: The names of the newly elected Fellows shall be announced at the annual meeting of the Association by the President of the Association or his appointed representative, who shall read a statement regarding the achievements of each Fellow and shall present a certificate of recognition to the person so honored. The statements regarding achievements will be published in the December proceedings issue of the AJAE.

Distinguished Extension Programs

The distinguished extension program awards recognize achievement of excellence in extension economics teaching programs. Two awards may be given. One of the awards is to be given to an individual. A second award may be given to a group of two or more extension workers. The name and contribution of each person must be identified in any group nomination.

Nomination: Nominations may be made by any member(s) of the AAEA, and selection will be made from among those nominated. A nominee must have been active in extension teaching for at least one year at the time of the nomination, and the content of teaching efforts must be principally in the field of agricultural economics. Each nomination must be made by separate letter accompanied by eight copies of documentary evidence including nominee names(s) and extension titles(s); extension program area in which teaching is conducted; identification of the clientele served; objectives of the educational program, teaching techniques, educational methods, and materials utilized; and effectiveness of the extension teaching effort in terms of clientele response and/or establishment of the utility of the extension teaching program.

Evaluation: Each nominee will be evaluated on the quality of work as indicated by the documentary evidence submitted with the nomination relative to the following characteristics: effectiveness in teaching application of economic principles and tools of analysis appropriate to the problem and audience involved, ability to conceptualize new extension educational programs and application of new teaching concepts to existing programs, effectiveness in bringing about significant behavioral change and/or understanding of clientele, and contribution to improved extension teaching in agricultural economics as evidenced by participation in appropriate professional activities and organizations.

Submission: Nominations and supporting evidence must be submitted to the chairperson of the Distinguished Extension Program Awards Subcommittee.

Distinguished Policy Contribution

The distinguished policy contribution award recognizes an outstanding contribution to policy decisions or to the advancement of public understanding of major policy issues related to food, fiber, agriculture, and human welfare. Policy issues are interpreted in their broadest sense. They may relate to either a national or international situation. Their focus may be on production, marketing, or consumption. They include such things as price and income policy, environment and land-use issues, local government, rural poverty, and community development problems. The purpose of the award is to encourage interest in economic analysis of public policy issues that can provide timely and relevant information for more effective public policy and program decisions. The award is intended to focus attention on important efforts in research, education or public service that facilitate the policy process and improve public performance and understanding. This award may be given annually.

Nomination: Individual or group efforts may be nominated. Nominations may be submitted by individual members, groups, or institutions. In addition, the Distinguished Policy Contribution Award Committee is encouraged to generate nominations to assure that all outstanding policy contributions are considered. Winners will be selected on the basis of the supportive material showing major contributions within the previous five years. Renominations are invited provided the supportive material is updated. Each nomination must be made by separate letter accompanied by documentary evidence supporting the nominee's contributions to the development and/or understanding of public policy. If the nomination is a group effort, all members of the group must be identified at the time of nomination. Eight copies of each entry should be submitted. Return of the material submitted is not customary but can be requested.

Evaluation: Entries must demonstrate significant contributions to the development and/or understanding of policy through research, extension, education, or public services activities. They will be evaluated on the quality of contribution to policy decisions or to the advancement of public understanding of major policy issues related to food, fiber, agriculture, and human welfare. Additionally, contributions will be evaluated based on the impacts they have had on the decision-making process. The effort must be a significant contribution to policy understanding as indicated by publication, program participation, or public response and awareness. The work should show evidence of demonstrated excellence in defining and articulating policy issues to the public and helping the public to understand and be aware of such issues.

Submission: All nominations and documentation should be sent to the chairperson of the Distinguished Policy Contribution Award Subcommittee.

Distinguished Undergraduate Teaching

The distinguished undergraduate teaching awards recognize and encourage meritorious performance in undergraduate teaching in agricultural economics. Two awards will be given: one for an individual with less than ten years of experience as an undergraduate teacher, and one for an individual with ten or more years of experience as an undergraduate teacher.

Nomination: Nominations may be submitted by any member(s) of AAEEA. Winners will be selected based entirely on the supportive material submitted. Renominations are invited providing the supporting evidence is updated and resubmitted. Nominees must be actively engaged in teaching at a professional level during the current school year. Nominees must have demonstrated outstanding ability as an undergraduate teacher of agricultural economics. The format of the nomination material submitted should use as primary categories the five major criteria areas listed below. Include biographical data of the nominee--name, present position, education, and number of years of university-college teaching and experience in the profession. Supporting evidence must be limited to three pages for each of the five primary categories of the nomination. No more than three letters of reference from peers and students for each of the five primary categories should be included. Adjunct material may be included as an appendix to the nomination package if desired, for example, summaries of student class evaluations for courses taught. Eight copies of each nomination package are required.

Evaluation: Five major areas will be considered in evaluating nominations with relative weights as follows. (a) Quality of teaching (45%)--ability to motivate and stimulate student to learn; innovation for presentation and evaluation measurements; and mastery of subject, use, and application to business conditions. (b) Academic advising, counseling, and extracurricular activities of students (20%)--advising and counseling; and catalyzing extracurricular activities of students through department clubs or organizations, student council or senate, student publications, convocations, seminars and community involvement. (c) Campus participation in instructional, course, and curricular improvement efforts (15%)--department, college, and university-wide. (d) Professional improvement in teaching for benefit of self and peers (15%)--published textbooks, manuals, bulletins; research papers related to improved teaching; and participation in professional meetings and committees related to improved teaching and student activities; (e) Department/college/university teaching awards (5%)--student association/alumni awards.

Submission: Nominations and supporting evidence must be sent to the chairperson of the Distinguished Undergraduate Teaching Awards Subcommittee.

Professional Publications

Four major awards are given to encourage excellence in publications in all areas of agricultural economics. These are: Quality of Research Discovery, Quality of Communication, Publication of Enduring Quality and Outstanding Article in the AJAE.

Quality of Research Discovery

There are no requirements regarding the number of authors or professional experience. Nominations may be submitted by individuals, departments, or agencies. Nine copies of each publication should be submitted, unless expense for the individual is excessive. Return of the publications is not customary but may be requested. Nominations should be submitted for only one award in either the quality of research discovery or the quality of communication category.

Nomination: A maximum of two awards are given. Entries must specify that the nomination is to be judged for the quality of research discovery. Entries must have been published in the previous calendar year.

Evaluation: The research must be a significant contribution to the field of knowledge in agricultural economics. The work should demonstrate excellence in research methodology and may deal with conceptualization of researchable problems as well as empirical verification.

Submission: Entries should be forwarded to the chairperson of the Quality of Research Discovery Awards Subcommittee.

Quality of Communication

The rules pertaining to the award for quality of research discovery also apply to this award for quality of communication.

Nomination: A maximum of two awards will be given. Entries must specify that the entry is to be judged for its quality of communication. Entries must have been published in the previous calendar year.

Evaluation: Entries must demonstrate superior communication of concepts or knowledge in any subject matter area of professional specialization (i.e., research, teaching, or extension) in agricultural economics to a specified audience. If dealing with transmission of research findings, the publication need not contain the author's original research but should improve communication within the profession as well as between it and other professions.

Submission: Entries should be forwarded to the chairperson of the Quality of Communication Awards Subcommittee.

Publication of Enduring Quality

Nomination: One award is offered for a publication having publication date during the fifteen-year period ending 11 years prior to the award year. Eligible entries are articles in the AJAE (during part of the period considered the AJAE was known as the Journal of Farm Economics), regardless of whether the authors are AAEA members, and also other publications by authors, one of whom was a member of the AAEA at the time of publication. Entries must be submitted by departments or other administrative units, colleagues, or the authors themselves. Publications receiving an award in any other category in previous years are eligible for this award.

Evaluation: Entries are judged on the basis of the enduring quality of their contribution to the profession.

Submission: Entries should be forwarded to the chairperson of the Publication of Enduring Quality Subcommittee.

Outstanding Article in American Journal of Agricultural Economics

The editor and editorial council of the Journal, with the editor as chairman, will choose the outstanding article in the previous volume of the Journal.

Outstanding Master's Thesis

The outstanding master's theses awards have as their objective development of professional excellence by individuals writing master's theses in agricultural, natural resource, or rural economics. Three awards are given. A cash supplement of \$250 accompanies each award.

Nomination: Nominations may be made from any department in which students write master's theses in the areas of agricultural, natural resource, or rural economics. Any entry must be submitted by the head or chairperson of the department where the degree is earned. A department may submit one nomination for each 15 master's theses or fraction thereof presented to a graduate school faculty in the previous calendar year. In determining the number of eligible theses, departments should limit consideration to theses in the areas of agricultural, natural resource, or rural economics.

Nominations should include thesis or other comparable documentation. Selection will be made from documentation approved in final form by the student's advisory committee. A thesis will be eligible for competition in the calendar year following the one in which the thesis was accepted by the graduate school or division. A published thesis may be entered in both the published research and master's thesis classes but is eligible for only one award. Although a published thesis is acceptable, a copy of the thesis as submitted to the graduate faculty should be sent whenever possible. Three copies of a thesis (or comparable document) must be sent to the subcommittee chairperson. All copies are returned after they have been read by the judges.

Evaluation: Copies of evaluation criteria may be obtained from the subcommittee chairperson.

Submission: All nominations and documentation should be sent to the chairperson of the Master's Thesis Awards Subcommittee.

Outstanding Doctoral Thesis

The outstanding doctoral thesis awards are given in recognition of development of professional excellence by persons writing doctoral dissertations in agricultural, natural resource, or rural economics. Three awards are given. A cash supplement of \$250 accompanies each award.

Nomination: An entry must be submitted by the head or chairperson of the department where the thesis or comparable document was presented in partial fulfillment of requirements for the Ph.D. degree. A department may submit one nomination for each 12 doctoral theses or fraction thereof presented in agricultural, natural resource, or rural economics to a graduate school faculty in the previous calendar year. In determining the number of eligible nominations, departments should limit consideration to theses in the areas of agricultural, natural resource, or rural economics.

Selection will be made from documentation approved in final form by the student's advisory committee. A thesis will be eligible for competition in the calendar year following the one in which the thesis was accepted by the graduate school or division. A published thesis may be entered in both the published research and thesis categories but is eligible for only one award. Although a published thesis is acceptable, a copy of the thesis as submitted to the graduate faculty should be sent whenever possible. Three copies of a thesis must be sent to the subcommittee chairperson. All copies are returned after they have been read by the judges.

Evaluation: Copies of evaluation criteria may be obtained from the subcommittee chairperson.

Submission: All nominations and documentation should be sent to the chairperson of the Doctoral Thesis Awards Subcommittee.

ANNUAL AWARD WINNERS, 1977-1981

AWARD WINNERS
1977

- A. Distinguished Extension Program:
 - Less than ten years-Otto C. Doering III
 - Ten or more years-C. Phillip Baumel
- B. Distinguished Undergraduate Teaching:
 - Less than ten years-David E. Hahn
 - Ten or more years-Milton M. Snodgrass
- C. Outstanding Master's Degree Program:
 - (1) Douglas C. Holliday
 - (2) Andrew M. Novakovic
 - (3) Eugene S. Rosera
- D. Outstanding Doctoral Degree Program:
 - (1) Nancy E. Bockstael
 - (2) Geraldo S. De Camargo Barros
 - (3) Bruce L. Dixon
- E. Quality of Research Discovery:
 - (1) J. A. Edwards, K. C. Gibbs, L. J. Guedry, and H. H. Stoevener
 - (2) Ronald W. Ward
- F. Quality of Communication:
 - (1) Wallace Barr et al
 - (2) W. W. Cochrane and Mary E. Ryan
- G. Publication of Enduring Quality:
 - Karl A. Fox
- H. Outstanding Journal Article:
 - Per Pinstrup-Andersen
 - Norha Ruiz de Londono, and Edward Hoover

AWARD WINNERS
1978

- A. Distinguished Extension Program:
 - Less than ten years-David C. Petritz
 - Ten or more years-Thomas E. Nichols, Jr.
- B. Distinguished Policy Contribution:
 - J. B. Penn, Ronald D. Krenz, Rudie W. Slaughter, W. Herbert Brown, Percy Leo Strickland, Jerry A. Sharples, Otto C. Doering, Thomas A. Miller, Milton H. Erickson, Leroy C. Rude, Alan S. Walter, Cecil W. Davison, Rodney L. Walker, Ludwin D. Speir, Jr., Thomas A. Stucker, James D. Johnson, Ronald R. Miller, Charles C. Micheel, Ronald L. Meekhof, and Gail D. Garst
- C. Distinguished Undergraduate Teaching:
 - Less than ten years-Thomas L. Frey
 - Ten or more years-Daniel G. Sisler

- D. Outstanding Master's Degree Program:
 - (1) Robert P. King
- E. Outstanding Doctoral Degree Program:
 - (1) Alexander H. Sarris
 - (2) David J. Walker
 - (3) Frank A. Ward
- F. Quality of Research Discovery:
 - (1) Wallace E. Huffman
 - (2) Gershon Feder, Richard Just, and Andrew Schmitz
- G. Quality of Communication:
 - (1) David H. Bache and James R. Foster
 - (2) Stanley A. Changnon, Jr., Ray J. Davis, Barbara C. Farher, J. Eugene Hass, J. Loreena Ivens, Martin V. Jones, Donald A. Klein, Dean Mann, Griffith M. Morgan, Jr., Steven T. Sonka, Earl R. Swanson, C. Robert Taylor, and Jon Van Blokland
- H. Publication of Enduring Quality:
 - John W. Mellor
- I. Outstanding Journal Article:
 - Yujiro Hayami and Robert W. Herdt
- J. Special Recognition, 1977 Winner, Edward W. Browning Award: Earl O. Heady

AWARD WINNERS
1979

- A. Distinguished Extension Programs:
 - Less than ten years-J. Roy Black
 - Ten or more years-Wallace Barr
- B. Distinguished Policy Contribution:
 - (1) Howard E. Conklin
 - (2) G. Edward Schuh
- C. Distinguished Undergraduate Teaching:
 - Less than ten years-Paul D. Hummer
 - Ten or more years-Manning H. Becker
- D. Outstanding Doctoral Degree Program:
 - (1) Jean-Paul Chavas
 - (2) Ronald C. Mittelhammer
 - (3) Basil M. H. Sharp
- E. Outstanding Master's Degree Program:
 - (1) John T. Daubert
 - (2) James E. Davis, Jr.
 - (3) Richard E. Haack
- F. Quality of Research Discovery:
 - (1) Haus P. Binswanger, Vernon W. Ruttan, Uri Ben-Zion, Alain de Janvry, Robert E. Evenson, Yujiro Hayami, Terry L. Roe, John H. Sanders, William W. Wade, Adolf Weber and Patrick Young
 - (2) Ronald W. Ward and James E. Davis

G. Quality of Communication:

- (1) Mary E. Ryan, Robert L. Tontz, Martin K. Christiansen, James P. Houck, Peter K. Pollak, Bob F. Jones, Robert L. Thompson, Jimmie S. Hillman, Anne E. Peck, Andrew Schmitz, Stephen C. Schmidt, Harold D. Guither, Arthur B. Mackie, Leo V. Mayer, and Harold Breimyer
- (2) Ron C. Allen, James Bauder, David W. Cobia, Gerhard N. Fick, Basil Furgala, Harvey J. Hirning, Edna T. Holm, David H. Kinard, John D. Nalewaja, David M. Noetzel, William K. Pfeifer, Charlie E. Rogers, Leroy W. Schaffner, Robert and Jay Shuler, Albert Schneiter, John T. Schulz, Tommy E. Thompson, David E. Zimmer, and Joseph C. Zubriski

H. Publication of Enduring Quality:

Marc Nerlove

I. Outstanding Journal Article:

David Seckler and Robert Young

AWARD WINNERS

1980

A. Distinguished Extension Programs:

Less than ten years-James C. Cato
Ten or more years-Paul R. Robbins

B. Distinguished Policy Contribution:

Bruce W. Marion

C. Distinguished Undergraduate Teaching:

Less than ten years-Ronald J. Hanson
Ten or more years-Robert W. Taylor

D. Outstanding Doctoral Thesis:

- (1) Oral Capps, Jr.
- (2) Donald A. Johnson
- (3) David F. Nygaard

E. Outstanding Master's Thesis:

- (1) John M. Calloway, Jr.
- (2) Manuel Sanchez
- (3) Robert N. Stavins

F. Quality of Research Discovery:

- (1) Bruce L. Gardner
- (2) Yair Mundlak

G. Quality of Communication:

- (1) Gail L. Cramer and Clarence W. Jensen
- (2) Lowell D. Hill, Marvin R. Paulsen, and Margaret D. Early

H. Publication of Enduring Quality:

Earl O. Heady and John L. Dillon

I. Outstanding Journal Article:

George W. Ladd

AWARD WINNERS

1981

A. Distinguished Extension Programs:

Individual-Richard L. Barrows
Group-Gerald A. Doeksen and James R. Nelson

- B. Distinguished Policy Contribution:
Robert G. F. Spitze
- C. Distinguished Undergraduate Teaching:
Less than ten years-Kenneth L. Casavant
Ten or more years-W. David Downey
- D. Outstanding Doctoral Thesis:
 - (1) Christopher D. Easter
 - (2) Frederick I. Johnson
 - (3) John R. Stoll
- E. Outstanding Master's Thesis:
 - (1) Richard C. Barnett
 - (2) Randall R. Rucker
 - (3) Ralph Semprevio
- F. Quality of Research Discovery:
 - (1) Oscar R. Burt, Won W. Koo, and Norman J. Dudley
 - (2) LeRoy Blakeslee
- G. Quality of Communication:
 - (1) Arley D. Waldo, Carole B. Yoho, Norbert A. Dorow, Thomas Ostenson
B. L. Flinchbaugh, and Everett Peterson
 - (2) Harold G. Halcrow
- H. Publication of Enduring Quality:
Marion Clawson
- I. Outstanding Journal Article:
William G. Tomek

FELLOWS

AMERICAN AGRICULTURAL ECONOMICS ASSOCIATION

Article IV of the Bylaws set forth the criteria and procedures for selecting those who are to receive the highest honor the AAEA can bestow. After the initial year during which ten (10) were honored, the maximum number that could receive the award was three (3). In 1976 this number was increased to four (4).

1957	* John Donald Black	1970	Charles Edwin Bishop
1957	* Thomas Nixon Carver	1970	Marion Clawson
1957	* Joseph Stancliffe Davis	1970	Glenn Leroy Johnson
1957	* Garnet Wolsey Forster		
1957	Asher Hobson	1971	D. Howard Doane
1957	* Edwin Griswold Nourse	1971	Don Paarlberg
1957	Theodore W. Schultz	1971	Rainer Schickele
1957	* Henry Charles Taylor		
1957	* Frederick V. Waugh	1972	Karl A. Fox
1957	* Milburn Lincoln Wilson		
		1973	Harold F. Breimyer
1958	* Mordecai Joseph Brill Ezekiel	1973	Kenneth H. Parsons
1958	* Oscar B. Jesness	1973	Lauren K. Soth
1958	* William Irving Myers		
		1974	Dale E. Hathaway
1959	* Harold Clayton M Case	1974	Vernon W. Ruttan
1959	* Oscar Clemen Stine	1974	John F. Timmons
1960	* Leonard Knight Elmhirst	1975	* S. V. Ciriacy-Wantrup
1960	* Sherman Ellsworth Johnson	1975	Geoffrey S. Shepherd
		1975	Holbrook Working
1961	Oris Vernon Wells		
1961	* Ernest Charles Young	1976*	Emery N. Castle
		1976	Arthur T. Mosher
1962	* Murray Reed Benedict	1976	Willard F. Mueller
1962	* Hugh Bruce Price		
		1977	Lowell S. Hardin
1963	* Raymond George Bressler, Jr.	1977	Austin G. Hoffman
1963	Earl O. Heady	1977	* Sidney S. Hoos
		1977	Earl R. Swanson
1964	* Joseph Ackerman		
1964	* Karl Brandt	1978	Chester B. Baker
1964	* Foster Floyd Elliott	1978	James T. Bonnen
		1978	Richard A. King
1965	* Bushrod Warren Allin	1978	Lawrence W. Witt
1965	George Hubert Aull		
1965	Willard Wesley Cochrane	1979	Varden Fuller
		1979	Ruy Miller Paiva
1966	J. Carroll Bottum	1979	Kenneth L. Robinson
1966	George E. Brandow		
1966	Forest Frank Hill	1980	Harold O. Carter
		1980	Kenneth R. Farrell
1967	D. Gale Johnson	1980	John W. Mellor
1967	* William Hord Nicholls		
1967	Harry C. Trelogan	1981	Ben C. French
		1981	Philip M. Raup
1968	John F. Booth	1981	Samar R. Sen
1968	Maurice M. Kelso	1981	James D. Shaffer
1968	* Elmer Joseph Working		
1969	Nathan M. Koffsky		
1969	* James G. Maddox		
1969	Walter W. Wilcox

BIOGRAPHICAL LIST
OF
INDIVIDUAL MEMBERS

Each listing was made up to conform to the following format:

```

LastName, FirstName MI
  Specific Address-up to three lines
  City, State/Province/Division
  Country, Zip
Work Telephone      Home Telephone
Employer; Branch or Department   Year
  Title or Rank; Work or Activity Area
Employer; Branch or Department   Years
  Title or Rank; Work or Activity Area
Employer; Branch or Department   Years
  Title or Rank; Work or Activity Area
First Specialization
Second Specialization
Other Specializations, Interests, Honors, etc.
Other Specializations, Interests, Honors, etc.
PhD      Institution      Year
MS       Institution      Year
BS       Institution      Year

```

Missing lines were closed vertically. Also, missing line information was closed on the left. Individuals wrote their own sketches including the use of abbreviations. These have been editorially corrected only to the extent of clarity.

CLASSIFICATION OF MEMBERS ACCORDING TO
FIELDS OF SPECIALIZATION

The fields included in the Handbook-Directory form are listed below. Members were requested to indicate two specializations in the order of their preference. In the classifications which follow, members are grouped according to their first choice of specialization field.

<u>Field of Specialization</u>	<u>Page</u>
810 - Farm Management, Production Economics	540
820 - Agricultural Marketing	547
830 - Agribusiness Management	554
840 - Agricultural Price, Income, Policy Analysis	557
850 - International Agricultural Trade and Development	563
860 - Agricultural Finance	569
870 - Natural Resource, Environmental Economics	572
880 - Community Resource Economics	578
890 - Human Resource Economics	580
900 - Consumer Economics	581
910 - General Economics	582
930 - Research Methods, Econometrics, Statistics	585
940 - Other Specialities	588

810 - FARM MANAGEMENT, PRODUCTION ECONOMICS

811 - FARM PRODUCTN ECON

812 - FARM MGMT

813 - FARM ACCTS/RCRD-KEEP

814 - FARM FIRM GROWTH

Information on Submitting Manuscripts

1. **Cover letter.** In a cover letter, the author(s) must state (a) that the material in this manuscript has not been published and is not being published or being considered for publication elsewhere, and will not be submitted for publication elsewhere unless rejected by the *Journal* editor or withdrawn by the author(s); (b) that the material in this manuscript, so far as the author(s) knows, does not infringe upon other published material protected by copyright; (c) that the employer of the author(s), if any, either does not assert an ownership interest in the manuscript or is willing to convey such interest to the American Agricultural Economics Association (AAEA); and (d) that submission of this manuscript gives the AAEA the exclusive right to publish, to copyright, and to allow or to deny reproduction of the manuscript, in whole or in part. If the applicability of point (a) is unclear, the author(s) should explain.
2. **Author's identification.** In order to protect their anonymity in the review process, authors should avoid identifying themselves in the manuscript. Attach a separate page including the names of the author(s) and appropriate biographical information, as well as the title of the manuscript. Include only the title on the first page of the text.
3. **Typing.** Double-space all material, including footnotes, tables, quotations, and references, on 8½-by-11-inch standard weight white paper with margins on all sides of at least 1¼ inches.
4. **Style.** Follow *A Manual of Style* by the University of Chicago Press as well as previous issues of this *Journal*.
5. **Mathematical notation.** Use only essential mathematical notation; such notation is costly to typeset and may limit the readership. Avoid using the same character for both superscripts and subscripts, using capital letters as superscripts or subscripts, and using overbars, tildes, carets, and other modifications of standard type. Asterisks, primes, and small English letter superscripts are suitable substitutes.
6. **Footnotes.** Number footnotes consecutively throughout the paper, not page by page. Type the footnotes, double-spaced, on a page following the article. The institutional paper number and acknowledgments, if any, should be placed at the beginning of the list of footnotes. Footnotes should be only explanatory and should not be used for citations or for directing the reader to a particular work. This information can be incorporated into the text itself.
7. **References and citations.** Place all references, alphabetized by author, in a list at the end of the paper entitled "References." Only cited works should be included in the reference list. All citations should appear in the text and contain the author's name and page numbers, when necessary. Citations can be inserted parenthetically, e.g., (Doe) or (Doe, p. 5). Specify the date of publication if the same author appears more than once in the reference list, e.g., (Doe 1971, p. 5). If the author's name appears as part of the sentence, a parenthetical reference is unnecessary unless you need to cite page numbers or a date. A style sheet on references and citations is available upon request.
8. **Tables.** Place each table on a separate page; double-space all material; omit vertical rules.
9. **Figures.** Prepare figures on heavy white paper or acetate sheeting using black India ink or paste-up types suitable for black and white reproduction by a photographic process. Typescript is not suitable.
10. **Three copies.** Send the typed original and two carbon copies or photocopies. All copies should be inspected for completeness and quality of reproduction.
11. **Abstract.** Instructions for the preparation of an abstract will be sent when the manuscript is accepted for publication.
12. **Page charge.** Major support for this *Journal* is provided by page charges of \$40 per printed page, or fraction thereof, payable by the supportive institution or granting agency. Payment does not affect acceptance, scheduling, or form of publication. Instructions for making payment are provided with galley proofs.

American Agricultural Economics Association

President/G. Edward Schuh, University of Minnesota

President-Elect/Leo Polopolus, University of Florida

Secretary-Treasurer/Sydney C. James, Iowa State University

SEP 1982

Objective

The AAEA seeks to further the systematic development of knowledge of agricultural economics in order to improve agriculture and agriculture's contribution to the general economy. The activities of the AAEA include:

- publishing the *American Journal of Agricultural Economics*;
- planning and conducting two annual meetings of the membership;
- sponsoring annual awards for outstanding extension programs, distinguished teaching, and outstanding research;
- recognizing outstanding agricultural economists through a fellows program;
- supporting a literature retrieval system in cooperation with the U.S. Department of Agriculture;
- publishing periodically a biographical directory of the AAEA's members;
- supporting an employment registry for agricultural economists in cooperation with the U.S. Department of Labor.

Membership and Subscriptions

Membership in the AAEA is open to individuals having a professional interest in agricultural economics. Dues, payable at the beginning of each calendar year, are as follows: regular members, \$25, senior members, \$12.50, and junior members, \$12.50. Senior membership is open to persons, upon written request, who are sixty-five years of age or older and have retired from active professional work. Junior membership is for students and is limited to three years; students should use application forms, available from and signed by the head of the department in which they are studying. Members receive this *Journal*.

Any firm, corporation, association, or partnership may become an institutional member upon payment of \$100 per year; institutional members receive three copies of each issue of the *Journal*. Library subscriptions are \$35 per year. Individual issues of this *Journal* are \$10.00.

Payment of membership dues, correspondence regarding subscriptions, orders for individual copies of the *Journal*, changes in address, or inquiries about the general affairs of the AAEA should be sent to Sydney C. James, Secretary-Treasurer, American Agricultural Economics Association, Department of Economics, Iowa State University, Ames, Iowa 50011.
